Leveled Texts There are three levels in the SummerReads program, each aimed at “getting students ready” for a particular grade level in the fall—third, fourth and fifth.

An Abundance of Texts Each of the 7 books at a level has 3 chapters. 7 books x 3 chapters = 21 unique selections, one for each week of summer vacation. These are texts that students won't have seen during the school year in that they are brand-new and summer-specific!
